Foundations of Generative AI (ICT4403) - Assignment 2

Student name: Madhavan Komandur
Registration number: 230953298
Assignment title: Autoregressive Next-Word Text Generation
System title: Autoregressive Text-Generation System (Simple RNN, Bi-RNN, LSTM, GRU)
Dataset name: The War of the Worlds, H. G. Wells
Dataset link: https://www.gutenberg.org/files/36/36-0.txt
GitHub repository: https://github.com/sltrtn/FGAI-Assignment2-Autoregressive-TextGeneration

Summary:
Next-word text generation on The War of the Worlds. Four models compared: Simple RNN, Bidirectional RNN, LSTM, GRU. Metrics: loss, perplexity, accuracy, training time, temperature sampling (T=0.5, 1.0, 1.5). Full code, results, plots and samples are provided in the repository Jupyter Notebook (text_generation.ipynb).
